Subject: Fromus flora records

Here are a few records that are new (to me, anyway) for Fromus, recorded 11th June.

Grasses

Cynosuros cristatus : crested dogstail

Hordeum secalinum: meadow barley

Sedges

Carex hirta : hairy sedge

Carex pseudocyperus: hop sedge

Plus

Trifolium micranthum: least (or slender) yellow trefoil

Convolvulus arvensis: field bindweed

Orchis mascula: early purple orchid

Chaerophyllum temulum: rough chervil

Sinapis arvensis: charlock

best wishes - Laurie

Dear all,

I have attached the list of plants that are new to my Fromus records, after recent visits. Other people may have listed them.

best wishes - Laurie
